I've seen the story I've read it over once or twice
I said that you say A little bit of bad advice
I've been in trouble Happened to me all of my life
I've lied and you lie And who would get the sharpest knife

(G H) e a C e
You know I couldn't be somebody like that I'm not the kind of man to throw his hat
Into the ring and Go down without following through The day turns into night
Go down following through The day turns into night

e a e a e a C
Oh, oh, oh, This is just where I came in

G h e a a⁷
Hope rides on But I'll go anywhere Yes, I'll go anywhere with you
Time has gone But I'll go anywhere Yes, I'll go anywhere with you

Ref: e C
This is the danger zone This is where I came in
They know not what they do Forgive them all their sins
They know they cannot take away What you have given me

2: Fade into color Color into black and white
Under the bedclothes Everything will be alright
I know that you know Nothing ever stays the same
Said so, I said so The love will never speak its name

(G H) e a C e
Never gonna find somebody like you, Beauty with a brain and a body too
I could never make a move on a woman that leads me on She's got a little bit of something for everyone
It's a little too late and the wolf is on the run

G h e a a⁷
Hope rides on But I'll go anywhere Yes, I'll go anywhere with you
Time has gone But I'll go anywhere Yes, I'll go anywhere with you

Ref: e C
I always told myself I would regret this day
That I would fall apart And watch you walk away
(you cry) That you would cry out loud And I would stand aside
